

GROW A GARDEN

Supplies you'll need: dice, scissors, and crayons, markers, or coloring pencils

PAGE 1 - DESIGN YOUR FRUIT OR VEGETABLE

It's as easy as rolling a dice! There are 5 rounds, or steps, in this activity. Take turns rolling the dice. The number on the topside of the dice determines which of the 6 bodies, stems & leaves, eyes, eyebrows, and mouths you'll draw for your fruit or vegetable. For example, if you roll a 4 on the first round you'd draw the pear shape. Then on round 2 you roll a 5, you'd then draw the beat leaves and connect those to the top of your pear. On round 3, you roll a 4 again. You would draw the closed eyes. Continue rolling the dice until you've completed all 5 rounds and your silly fruit or vegetable is complete. The weirder looking your plant is, the more fun you have! Enjoy!

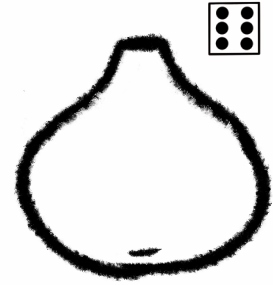

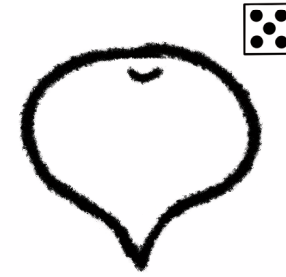

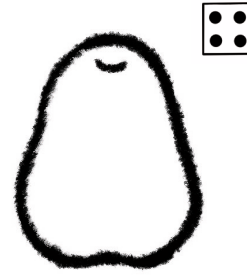

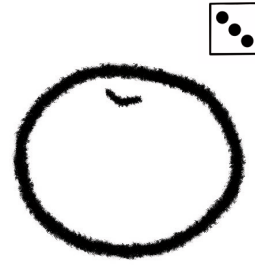

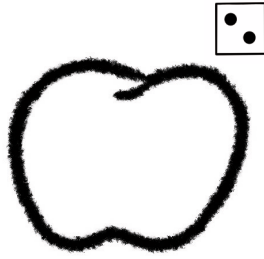

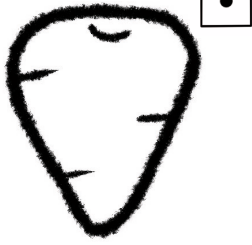

PAGE 2 - COLORING PAGE

Print this page out for some coloring fun! Feel free to cut out your finished fruit or vegetable and glue it to your beautiful garden. Give it a silly name.

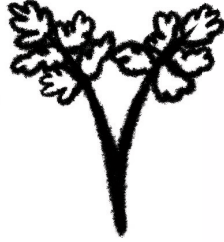

PAGE 3 - FULL COLOR GARDEN

If you don't feel like coloring then print this page. When you're done designing your plant, cut it out and glue it in the garden. have fun with it!
